

# Busy as a Bee

...Honeybees are called social insects because each member has special jobs that help the entire colony.

List some of your "jobs" that help your family.

---

---

Clue:  
It doesn't  
need to be  
"Sunday" to  
have one of  
these...

Connect the Dots

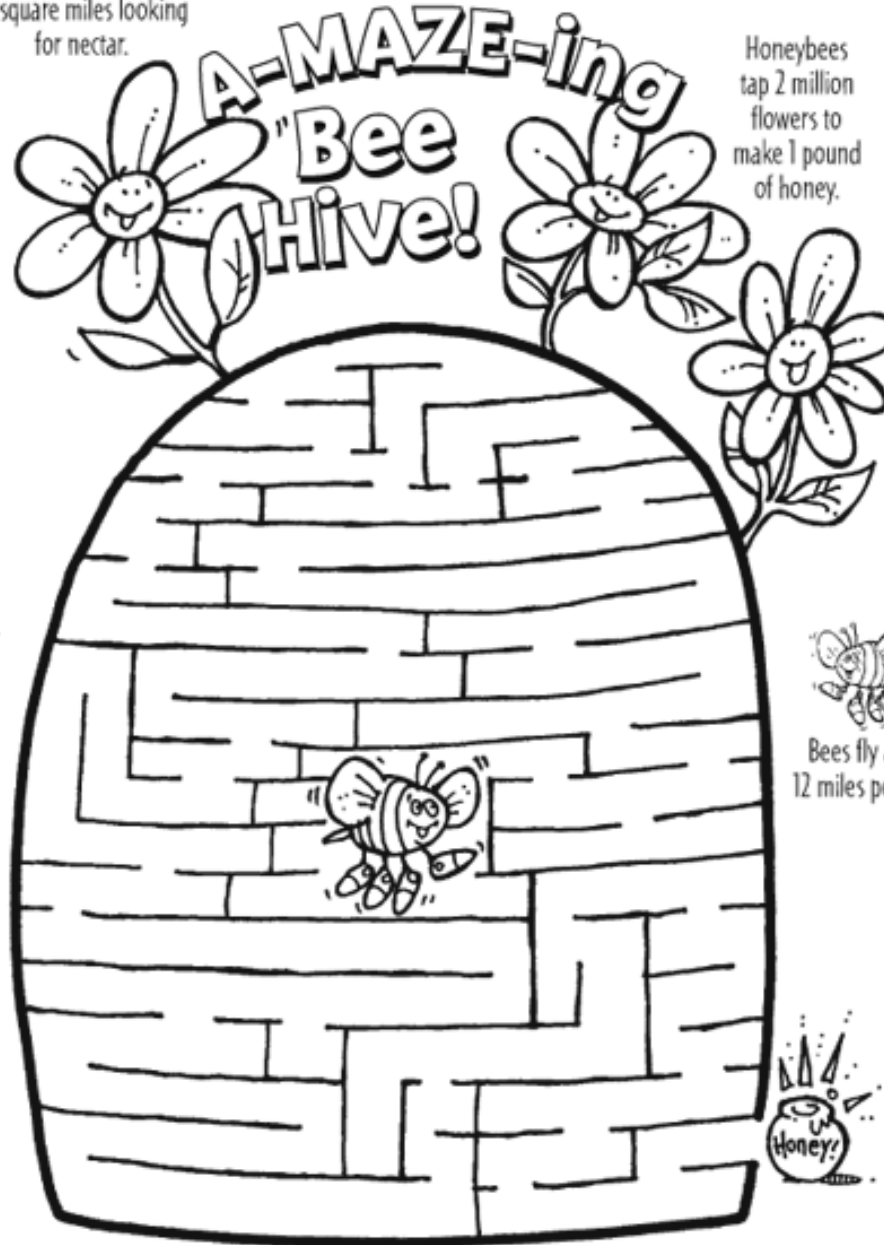

Beeswax is also used to make candles, lipsticks and floor wax... to name a few.

Honeybees will fly up to 12 square miles looking for nectar.

There are approximately 20,000 known species of bees in the world but only 6 are honeybees.

Honeybees tap 2 million flowers to make 1 pound of honey.

Draw the rest

Bees store honey in six-sided honeycomb cells made from beeswax. Complete this frame of six-sided cells... it's harder than it looks. (a six-sided figure like honeycomb is also called a hexagon.)

Store honey at room temperature, the refrigerator speeds up crystallization. To remove the crystals, take the lid off the jar and set the container in a little warm water until crystals dissolve.

Bees fly about 12 miles per hour.
